BOARD OF ARMOR EXAMINERS.

Committee to Estimate the Cost of Establishing a Government Plant.

Active Secretary Roosevelt has announced the names of those who will constitute the special board which is to make an investigation of the cost of establishing a government armor plant.

The board will hold its first meeting Monday, at the ordnance bureau, and will organize and discuss a plan for prosecuting the work. It is believed that the board will not be able to report before next December.

During the day Charles Camp, of Philadelphia, held a conference with Secretary Roosevelt and Capt. O'Neil, chief of the bureau of ordnance, concerning the armor supply for the three great battleships now being constructed. Mr. Camp said that Camp & Sons could not furnish armor for the three vessels for \$300 a ton, and that the firm declined taking the contract on those terms. He said further, however, that he was not adverse to undertaking to supply the small quantity of diagonal armor, amounting to about eighty tons, at \$200 a ton for the purpose of preventing a possible stoppage in the work of building the vessels. This particular kind of armor must be placed in the hull of the vessel when it is being constructed. It is probable that this offer will be accepted by the department.

ARMY AND NAVY ORDERS.

The War Department has issued orders as follows:

Leave of absence for six months, to take effect when relieved from his present duty in connection with Indians, is granted First Lieut. William C. Rivers, First Cavalry.

Second Lieut. James A. Moss, Twenty-fifth Infantry, and the detachment under his command, now at Jefferson Barracks, Missouri, will return to their station, Fort Missoula, Montana.

Leave of absence for two months, from September 1, 1897, with permission to apply for an extension of two months, is granted First Lieut. John M. Stoenberg, Sixth Cavalry.

Major James W. Pope, quartermaster, in addition to the duties assigned him from his office, will report in person to the commanding officer in charge of the improvement and protection of the Yellowstone National Park, Fort Yellowstone, Wyoming, for duty pertaining to the repair and maintenance of existing ponds and bridges, and improvement and protection of said park.

Leave of absence for twenty days, to take effect upon the completion of the duties assigned him, from this office, is granted Col. John C. Bates, Second Infantry.

Additional Second Lieut. Edwin R. St. art, Corps of Engineers, is assigned to a vacancy of second lieutenant in that corps, to date from July 31, 1897, with his present date of rank, June 15, 1896.

Major Paul R. Brown, surgeon, having been found by an army retiring board permanently incapacitated for active service, will proceed to his home, report by letter on his arrival there to the adjutant general of the army, and await retirement for physical disability.

On account of the reduction in the number of instructors at the U. S. Infantry and Cavalry School, Fort Leavenworth, Kan., Capt. Nat. P. Plafier, First Infantry, is relieved from duty at that school, to take effect September 1, 1897.

First Lieut. Charles Young, Seventh Cavalry, is detailed to attend the encampment of the Ninth Battalion, Ohio National Guard, at Newark, Ohio, from the 25th to the 30th of August, 1897. He will proceed, at the proper time, to the place of encampment, and report to the governor of Ohio for this service.

The following transfers are made in the Sixth Cavalry: First Lieut. John M. Stoenberg, from Troop B to Troop B, and First Lieut. Harrison K. West, from Troop B to Troop B.

JAPAN'S GAME BLOCKED

Chagrined Over the Failure of Her Diplomatic Trap.

MAY REFUSE TO ARBITRATE

Unless the United States Guarantees the Result the Orientals May Recede From the Negotiations With Hawaii—Ships Easily Captured in Case of War.

Japan is more than chagrined at the failure of her very clever diplomatic scheme to have the United States bound by the decision of the arbitrator, should the difficulties existing between Hawaii and Japan be settled by arbitration. It is to the credit of the State Department that the plans of the wily Orientals were so soon discovered, and that Japan was given to understand in plain, blunt English that the United States, after Hawaii is annexed to it, will recognize no treaty Hawaii has made. The only treaty that this government will respect at all will be one that it will be a party to after Hawaii is a part of its territory by virtue of annexation.

It is said by the Japanese that if the United States insists that it will not guarantee the judgment in the arbitration proceedings, Japan will not consent to arbitrate. Such refusal apparently will not destroy the opportunity of the State Department, and as a gentleman said yesterday, "I guess the United States can stand it."

The dispatches sent to the State Department by United States Minister Seward, and received Wednesday, gave a detailed account of the diplomatic correspondence between Japan and the Hawaiian government, but nothing in them indicated that there is any apprehension for serious trouble with Japan. On the contrary, the minister seemed hopeful that all difficulties will be removed by diplomatic negotiations, which in the future will be conducted at Tokyo and no longer at Hawaii, so far as they relate directly to Hawaii and not to the United States.

It is not generally known that the Japanese would be compelled to sacrifice two magnificent armored cruisers, each costing \$1,250,000, if a war should take place between this country and Japan, and that the United States would be enriched to that extent. One of these war vessels is being built by Cramp & Sons, at Philadelphia, and the other one by the Union Iron Works, at San Francisco. Soon after the close of the war with China Japan contracted with these two companies to build the cruisers, which are similar in design to the Philadelphia and Baltimore of the White Squadron. It is expected that they will be finished in eighteen months, but should it be necessary they could be prepared for service much sooner.

The vessels are the same size, being in length 396 feet, extreme beam, 49 feet, and draught 17 feet 7 inches, with a displacement of 4,870 tons. All the modern improvements in naval architecture are being provided and the hulls are divided into water-tight compartments by transverse and longitudinal bulkheads. The vessels must have, on their official trial, a speed of twenty-two and a half knots an hour. They will be armed with an eight-inch rifle forward and aft and five four-inch and five seven-inch guns, and these are supplemented with powerful secondary batteries of rapid-fire guns and two torpedo tubes, located so as to cover any angle.

These vessels would be seized by this government the instant that war broke out between this country and Japan, and would be forced to completion and made an excellent reinforcement to the Navy.

MORTONS AT MARSHALL HALL.

Cadets to Repeat the Drill as Performed at San Antonio.

In order that the people of Washington may see for themselves just what sort of a drill the Morton Cadets gave at the recent interstate competition at San Antonio, Tex., the company has completed arrangements for two exhibitions Saturday at Marshall Hall.

The boys and many of the spectators finally believe that the Morton Cadets have been awarded first prize and the championship at San Antonio, and that improvement seems to prevail generally in this city. The company has been indulging in practice drills for several days past, and Capt. Sullivan expects to equal the performance of the company at San Antonio. The company has been indulging in practice drills for several days past, and Capt. Sullivan expects to equal the performance of the company at San Antonio. The company has been indulging in practice drills for several days past, and Capt. Sullivan expects to equal the performance of the company at San Antonio.

There is another consideration, and that is a financial one. In order to make the effort to retain the championship for the District National Guards, the company was paid to an expense of nearly \$2,000, the prize money amounting to \$1,000. The cadets are anticipating that the Washington public will generously come to their aid.

Steamers will leave Washington for Baltimore at 9:30 and 10 a. m. and 3:30, 5:30 and 6:30 p. m. Passengers on the 9:30 boat may continue as far down the river as Indian Head if they desire. The drills, which are to be exact reproductions of those at San Antonio, will occur immediately after the landing of the 2:30 and 6:30 o'clock boats.

WALKING STICK'S CONUNDRUM.

Indian Chief's Hard Question at a Seance Disturbs the Spirits.

Wichita, Kan., Aug. 5.—A party of spiritists, from Fort Smith, Ark., gave a seance at Wichita last night, which was attended by many Indians, half-breeds and a few whites.

The mediums used a trumpet for the conveyance of messages from the spirit land. Finally an educated Indian named Walking Stick called for the spirit of his grandfather, and the spirit of the departed Indian granted through the trumpet. Walking Stick asked: "Who invented the Cherokee alphabet?" The trumpet answered, giving a long name.

The Indians became indignant, for they knew that Sequoyah himself was the inventor. Some one fired a revolver and a rush was made for the curtain. The trumpet and other paraphernalia were destroyed, but the mediums escaped through a window.

FIFTEEN-TON COAST DEFENDER

Monster Gun Cast at the Otis Steel Works.

Cleveland, Aug. 5.—Last night at the Otis Steel Works, and under the direction of Director Richard J. Gatling, a monster gun casting was made. It was a big cast defender. Thirty-one tons of steel was used in the single casting. The gun itself will weigh fifteen tons when it is ready for mounting. It will be a week before the mass cools. Then it will be bored and sent East to be rifled.

Contract valued \$40,000 for the experiment, and if it is successful the cost of making big guns will be reduced fully one-half, while the time required to make them will be correspondingly shortened. A large number of United States ordnance officers were present at the casting.

KING'S PALACE.

The Builders Have Commenced!

Already the builders have started to tear down our wall at our branch store, 715 Market Space. The dust and dirt will spoil the stock, so we'll sell it.

At Any Kind of Prices

to get rid of it. It's partly at 715 Market Space and part has been moved to our main store, 812-814 Seventh street, but the prices are the same. This is how they run:

SOCIETY NOTES.

A very pretty wedding took place Wednesday night at Trinity Episcopal Church, the contracting parties being Miss Maffie Louise Ellis, of this city, and Mr. James Eugene Boak, of Baltimore. The bride was becomingly gowned in white organdy and the groom in regulation dress suit. After the ceremony, which was performed by Rev. Dr. Baumer, the bride and groom and their immediate relatives proceeded to the residence of Mr. Reeves, where they partook of luncheon. Mr. and Mrs. Boak left for Atlantic City, where a portion of the honeymoon will be spent. Their future home will be in Baltimore, where the girl is engaged in business.

At noon Wednesday, in Baltimore, Mr. Levi Nagle, of the Pension Bureau, and Miss Catherine E. Schmidt, of Baltimore, were married at the bride's home, 304 North Carey street. Rev. Ambrose Schmidt, of Lancaster, a brother of the bride, officiated, assisted by Rev. Lloyd E. Colburn, pastor of St. Peter's Reformed Church. The bride was attired in white organdy over white silk, trimmed with lace. The parlor was decorated with vines, plants, and cut flowers. Mr. and Mrs. Nagle, accompanied by Miss Martine L. Schmidt, left later in the afternoon for Atlantic City. They will make their home in Washington.

Madame Wu, wife of the Chinese minister, has brought with her to Washington dozens of elegant and valuable gifts, which will be the envy of her diplomatic sisters next season. The delicacy of the silks, their fineness of wool, and elaborateness of design display rare taste and an extravagance that speaks volumes for the social intentions of the newly arrived representatives of the Chinese empire. Unfortunately Mrs. Wu does not speak English, but her aptitude for languages gives encouragement for the future, the more especially since it is understood she intends to devote the quiet of the summer months to study, with the view of perfecting herself by the autumn.

Madame Yang, her predecessor, was without doubt one of the most popular of diplomatic hostesses, and her relief for everything American rendered her a universal favorite.

Among Washingtonians registered yesterday at Asbury Park were Mr. and Mrs. W. W. McIntyre, Mr. and Mrs. William Miller, Miss Edwin Marshall, Miss Kate Banks and Messrs. John N. Norris, Walter P. Smyth and D. M. Carter.

Mr. and Mrs. Paul Kleinschmidt have gone to Atlantic City.

Miss Ella May Dunn, of 781 street north-east, is visiting friends in Havre de Grace, where she will remain until next month.

A clam dinner was given to the Spanish minister, Senor Dupuy de Loma, and Madame de Loma Wednesday night by Mr. and Mrs. Joseph V. Jordan at Plesure Bay, Elberon. The Spanish minister and his

wife will leave Elberon next week for London. Dinner was served under the branches of four immense elm trees on the lawn of the Hotel Avenue. The ladies were in the shape of a "T." Senor de Loma sat at the foot of the "T" and his wife at the center of the cross arm. At the right of Senor de Loma sat the French Ambassador and Mme. Penelope de Washington. Covers were laid for eighty guests.

Miss Dorothy Miller is at Harper's Ferry as the guest of Mr. and Mrs. Andrew Foster, who have a home in the mountains near the historic old town.

Mrs. Columbus Alexander, of Columbia Heights, and her little granddaughter, Josephine, are spending August at the St. Charles, Atlantic City.

Miss Daisy Mamee, accompanied by a party of friends, is spending some time at Castle Haven, on the Chesapeake.

The French Ambassador and Mrs. Penelope will be the guests shortly of Mr. and Mrs. Calvin S. Price at Newport.

Mr. D. A. Chambers and Miss Chambers left yesterday for Saratoga to join Mrs. Chambers, who is visiting her son, Rev. T. F. Chambers.

Miss Lottie Calhoun is spending the remainder of the season at Piney Point.

Mr. and Mrs. George F. Belt, of East Capitol street, will leave tomorrow for a month's stay in St. Mary's county, near Leonardtown, Md.

Miss Leone A. Ward, of Friendly, Md., is preparing to go to Atlantic City, to remain until September 1.

Mr. and Mrs. J. W. Robertson entertained a pleasant gathering of friends Wednesday at their residence, in honor of Mr. Robertson's birthday. Among those who assisted in making the evening one of pleasure were: Mr. and Mrs. Donald, Mr. and Mrs. Hurler, Mr. and Mrs. Lumbard, Mr. Hurler, Miss Schmidt, Mr. Helber, Mr. G. Schmidt, the Misses Robertson, and Master Julius Donat.

Opening Day.

At the Grand Union Tea Company, 621 7th st. n.w., opp. Patent Office.

Wolff Cookers.
